DALLAS, Oct. 23, 2017 /PRNewswire/ -- Lennox International Inc. (NYSE: LII) today reported financial results for the third quarter of 2017. All comparisons are to the prior-year period.

Revenue was a third-quarter record \$1.052 billion, up 4%. At constant currency, revenue was up 3%. GAAP operating income was \$155 million, down 1%. GAAP earnings per share from continuing operations was a third-quarter record \$2.45, up 5%. On an adjusted basis, total segment profit increased 2% to a third-quarter record \$161 million. Total segment margin was 15.3%, down 30 basis points from the record third-quarter level of a year ago. Adjusted EPS from continuing operations rose 9% to a third-quarter record \$2.53.

"While underlying economic conditions remain strong, the third quarter was materially impacted by significantly cooler weather than a year ago and the near-term market disruption from the hurricanes that hit Texas and Florida," said Chairman and CEO Todd Bluedorn. "These dynamics negatively impacted the company's growth and margin performance in the quarter -- specifically for our residential replacement, commercial emergency replacement, and refrigeration wholesale businesses. That being said, the company posted record third-quarter revenue, total segment profit, and EPS.

"In Residential, revenue and profit hit new third-quarter highs. Revenue rose 3% on high-single digit growth in new construction and low-single digit growth in replacement. Segment margin was off 30 basis points to 19.4%. Residential profit rose 2% in the quarter.

"Our Commercial business set new all-time highs for revenue and profit. Commercial revenue was up 6% at constant currency, led by nearly 20% growth in National Accounts and mid-teen growth in National Account Services. Planned replacement revenue was up 20%, while emergency replacement revenue was relatively flat. Europe was down double digits. Commercial margin was off 90 basis points to 18.6%. Commercial profit rose 2%.

"In Refrigeration, revenue was up 2% at constant currency. North America, our most profitable region, was flat, while Europe, Asia Pacific, and South America were up. Refrigeration margin was down 190 basis points to 10.4%, and segment profit was down 13%.

"Looking ahead for the company overall with the recovery in key regions underway, we are well-positioned to close out a year of record revenue, margin and profit in 2017 and to drive strong growth and profitability over the coming year."
