

Lennox International Reports Q4 and Full-Year 2002 Earnings in Line With Guidance

February 5, 2003

DALLAS, Feb. 5 /PRNewswire-FirstCall/ -- Lennox International Inc. (NYSE: LII) announced today its fourth quarter and full-year 2002 earnings, in line with previous guidance.

Fourth quarter 2002 results

LII's net sales for the fourth quarter of 2002 decreased 3% to \$704 million. Excluding the effects of the heat transfer joint venture and the activities of other non-core operations, company-wide sales, in constant currencies, were up 2%. Operating income was \$13 million, contrasted with an operating loss of \$43 million last year, reflecting improvements in all of LII's business segments. Operating margins expanded to 1.8%.

Net income was \$5 million, or \$0.08 per diluted share, compared with a loss in the prior year of \$40 million, or \$0.72 per diluted share. Changes in foreign exchange rates benefited earnings per share in the fourth quarter by \$0.01. The prior year fourth quarter net loss included restructuring charges of \$28 million, net of tax, or \$0.50 per share.

Full-year 2002 results

Sales for full-year 2002 were \$3 billion, down 3% from 2001, with changes in foreign exchange rates benefiting revenues by less than 1%. Sales in the company's core businesses, in constant currencies, were down less than 1%. Favorable weather supported LII's domestic residential businesses in 2002, while demand from commercial customers for heating, cooling, and refrigeration equipment and services remained soft. Sales outside the U.S. and Canada accounted for 13% of total LII revenues.

Operating income for the year increased to \$126 million from an operating loss of \$1 million in 2001. Higher volumes in LII's Heating & Cooling and Refrigeration businesses, along with lower cost structures across all LII operations, contributed to improved operating margins of 4.2% in 2002.

Including the \$249 million goodwill impairment charge the company recorded in the first quarter, LII reported a net loss of \$190 million, or \$3.23 per diluted share, in 2002, compared with a loss in the previous year of \$42 million, or \$0.75 per diluted share. This full-year loss per share included restructuring charges; gains, losses, and other items; and FAS 142 impairment of goodwill, totaling a diluted loss per share of \$4.19. Excluding these items, LII's diluted earnings per share of \$0.96 were in line with the company's previously stated guidance of \$0.90-\$1.00, as reconciled in the table below.

Lennox International Inc. - Pro Forma Net Income Reconciliation (In thousands, except per share data)

Pro Forma Net Income	\$	56,712	\$ 0.96

LII generated full-year free cash flow of \$191 million, allowing the company to reduce its total debt by \$138 million from the end of 2001. As historically defined by LII, free cash flow is cash from operations less capital expenditures, before dividends, asset securitizations, restructurings and gains, losses and other items. Reflecting its continued focus on the balance sheet, LII has lowered debt by over \$310 million in the past 24 months.

"Despite a challenging global economic environment, LII made dramatic progress improving financial performance in 2002," said Bob Schjerven, chief executive officer. "We performed in line with our recent guidance, while forging the structure of a strong, focused company poised to deliver enhanced shareholder value going forward."

Fourth Quarter and Full-Year 2002 Results: Segment Performance

The following tables show LII's operating performance. Segment operating income is defined as income from operations as reported in the company's statement of operations, adjusted to exclude restructuring charges; other operating gains, losses and expenses; and amortization of goodwill.

To facilitate comparisons of operating performance in the fourth quarter, the segment data below are adjusted for restructuring, other non-recurring charges, and the new goodwill accounting standard.

Heating & Cooling revenues rose 6% in the fourth quarter of 2002 to \$398 million. Segment operating income more than doubled to \$33.6 million from \$14.8 million last year. Operating margins for the quarter rose to 8.4% from 3.9% in 2001.

In the Residential Heating & Cooling segment, revenues rose 8% during the quarter to \$284 million. Operating income increased to \$27.5 million from \$10.3 million last year, with operating margins expanding 580 basis points to 9.7%. Seasonally favorable weather and strong performances by Lennox Industries' Dave Lennox Signature(TM) Collection product line, along with exceptionally strong performances from LII's Ducane and Advanced Distributor Products (ADP) units, led the residential segment.

Revenues in the Commercial Heating & Cooling segment were flat at \$114 million, and were down 4% when adjusted for changes in foreign exchange rates. Operating income increased 35% to \$6.1 million, while operating margins expanded 140 basis points to 5.3%. Paring back of unprofitable operations in Asia and Australia during 2002 and an improved domestic product mix contributed to strong commercial business improvements.

Service Experts revenues declined 3% when compared to the previous year, primarily because there was one fewer week of operations included in this year's quarter. Excluding the effects of the additional week of operations in the previous year and the effect of centers closed in 2001, same-store sales increased 2%.

Service Experts posted an operating loss of \$2.1 million for the quarter, with results negatively impacted by approximately \$4.6 million in increased expenses due to a change in estimates in self-insured insurance costs. These results mark a substantial improvement over the segment operating loss of \$5.9 million reported a year ago.

Refrigeration segment revenue rose 8%, or 3% in constant currencies. Segment operating income was \$8.5 million, up 86% from last year. Operating margins increased to 9.4% from 5.4% in fourth quarter 2001. Every LII global refrigeration operation achieved improved performance for the quarter.

Outlook for 2003

After a record year for industry shipments of residential equipment and with the timing for economic recovery unclear, company revenues are expected to be relatively flat in 2003. However, earnings are anticipated to improve based on continued focus on cost reduction initiatives and the full-year effects of other actions taken in 2002. Earnings per share are anticipated to be in the range of \$1.10 to \$1.20, a 15-25% improvement over this year's result. Continued strength in free cash flow is expected, with 2003 free cash flow approximately equal to net income.

"LII is well-positioned for the future," Schjerven said. "Continued improvements in our core businesses are generating the cash needed to take advantage of important opportunities down the road, while a stronger balance sheet provides more flexibility for growth initiatives. We are encouraged by our progress in 2002, and look forward to continued improvement this year."

Conference call scheduled

LII has scheduled a conference call to discuss financial results for the fourth quarter and full-year 2002 on Thursday, February 6 at 9:30 a.m. Central time. All interested parties are invited to listen as Bob Schjerven, CEO and Rick Smith, CFO comment on the company's operating results. To listen, please call the conference call line at 612-326-1003 ten minutes prior to the scheduled start time and use reservation number 671379. The number of connections for this call is limited to 200.

This conference call will be broadcast live on the Internet by PRNewswire and can be accessed at http://www.firstcallevents.com/service/ajwx372512125qf12.html. A link to the broadcast can also be found on the company's web site at http://www.lennoxinternational.com. If you are unable to participate in this conference call, a replay will be available from 1:00 p.m. February 06 through February 13, 2003 on the Internet or by dialing 800-475-6701, access code 671379.

A Fortune 500 company operating in over 70 countries, Lennox International Inc. is a global leader in the heating, ventilation, air conditioning, and refrigeration markets. Lennox International stock is traded on the New York Stock Exchange under the symbol "LII".
